

R134a... be legal !! with the new **N² Pro**

"Fully Automatic" A/C Service Centre

Did you know it is illegal to charge a vehicle's A/C system with refrigerant to check for leaks...

The New TEN N² Pro spearheads the next generation of "Fully Automatic" Air Conditioning Service Centres, incorporating the latest "Eco Friendly" Nitrogen leak detection system.

Designed for simplicity and ease of use the N² Pro boasts an approximate 20 minute Recovery and Recharge cycle, making it the most advanced "Eco Friendly" microprocessor controlled Air Con Service System to comply with the latest EU Environmental Laws.

- ***New Nitrogen Leak Pressure Test***
- ***Environmentally "EU" compliant***
- ***No messy leak dye***
- ***Simple menu operation***
- ***Approximate 20 minute Service Cycle***
- ***Extra Long 5m "quick connect" hoses***
- ***No Annual Software Subscriptions***
- ***Unbeatable "Eco Friendly" Price***
