

TEN AUTOMOTIVE TRAINING COURSES

**AS FROM JULY 4th 2010
ANYBODY HANDLING, OR
USING R134A REFRIGERANT
MUST HOLD A MINIMUM
LEVEL 3 QUALIFICATION AWARD IN REFRIGERANT
HANDLING... (EC842/2006)**

Complete Certified IMI Training is available from TEN Automotive to ensure full compliance, with the new EU Regulations, for the handling and use of F Gases and servicing Mobile A/C Systems (MACS), which apply from 4th July 2010.

Courses are either held at our IMI Approved Training Centre, here in Kings Lynn, or On-Site at a Customer's Premises.

The one day course covers the fundamentals of handling R134a refrigerant and Vehicle Air Conditioning theory. It identifies major component parts and controls, including their operation. Recycling, Basic Diagnostics and Leak Testing are workshop assessed, in order that the Candidates will achieve their Level 3 VRQ Diploma.

Price: £250.00 (plus VAT) per Candidate will include IMI Registration Fee, all Training Materials, Support Documentation and a light lunch.

On-Site Training is also offered, if a suitable Classroom/Workshop facility is available. A minimum of two Candidates would be required and an additional charge of £70.00 (plus VAT) is levied to cover travelling/overnight expenses.
